

Shiawassee County Amateur Radio Public Service Corps [ARPSC]

Currently, November, 2015 we do not have a valid inventory of people, training and equipment to support local needs. To better understand who and what is available, Shiawassee Amateur Radio Association [SARA] is compiling an inventory database. We will collect and share the information (if you allow us to do so). See <http://www.w8qqq.org/ares.html> for the planned layout.
